GOAL POSTS MUST BE ANCHORED AT ALL TIMES
Optional longer pegs are available for use on sandy ground. On grass, a risk assessment of soil and weather conditions suitability should be carried out when anchors or optional counter weights are to be used. Please note optional guy ropes are available; the guy ropes can be fixed to both sides of the goals to provide extra stability and reduce sideways sway. TEL: 0114 2434200

CARE & MAINTENANCE - see separate sheet supplied or visit www.itsagoal.net for additional copies. Our goalpost if used correctly will last many years. We do also offer a full spare part service and if your goals need refurbishment this can be arranged.

**ALUMINIUM FLAT-PACK 12’ X 6’ MINI-SOCCER GOAL**
(12’ x 6’ Multi-Surface) - One section crossbar.
DO NOT THROW THE LOCKING PINS AWAY
GROUND FRAME NET FIXING

1. Insert ground frame net fixings into holes on ground frame.
2. Push locking pin down centre.
3. Ensure locking pin is inserted fully.

NOTE: The Plastic button on the stanchion elbow is designed to be tight fitting, push in and out to warm up and make pliable. This makes it easier to insert and lock to part Q. Once connected this part stays in place. permanently.

The goal net can be left attached to the pre-assembled goal post side frames. After games detach crossbar and back bar for storage. We advise fitting the optional net ties to the side frames and stanchions.

GROUND PEG REMOVAL

Use the hook on the end of the red ground peg to remove pegs from the ground or use a claw hammer for pegs that are difficult to remove.

SMALLER STANCHION NET TIES

Smaller net ties are ideal to attach nets to the side frames and the back net support tubes. These are useful when you leave your nets attached to the goals at all times as shown on the diagram to the left. (Diagram A).

ANCHORING YOUR GOAL ON GRASS - POSITION YOUR GOAL ON A LEVEL PLAYING SURFACE. PLACE THE MULTI-SURFACE ANCHOR OVER EACH SIDE OF THE GROUND FRAME (POSITIONS SHOWN) HAMMER THE PEGS THROUGH THE HOLES ON THE ANCHOR DOWN UNDER THE FRAME INTO THE GRASS. ADDITIONAL ANCHORS OR LARGER PEGS CAN BE PURCHASED FOR USE ON SOFT GROUND OR SAND. ANCHORS WITH EXTRA BOLTS CAN BE USED FOR HARD SURFACES SUCH AS TARMAC. COUNTER BALANCE WEIGHTS CAN ALSO BE USED (SUPPLIED SEPARATELY).

SMALLER STANCHION NET TIES

OPTIONAL - STANCHION TIES

OPTIONAL - NET TIES
