RGA	REAR GROUND ANCHOR	x2	
GP	GROUND PEG	x12	
TTE	TOP TUBE ELBOW	x2	
I	SMALL QUICK RELEASE BUTTON	x2	
NT	NET TIE	x10	
ST	SMALL STANCHION NET TIE	x10	
NET	GOAL NET	x1	

POST SECTIONS

J	CROSSBAR SECTION 1726mm LONG - 68mm Diameter	x1	
K	UPRIGHT SECTION 1205mm LONG - 68mm Diameter	x2	
L	TOP STANCHION TUBE 239mm LONG - 40mm Diameter	x2	
M	BACK STANCHION TUBE 1265mm LONG - 40mm Diameter	x2	

GOAL POSTS MUST BE ANCHORED AT ALL TIMES

Optional longer pegs are available for use on sandy ground. On grass, a risk assessment of soil and weather conditions suitability should be carried out when anchors are to be used.

Extra anchors are available TEL: 0114 2434200

6' X 4' GRASS SURFACE FOOTIEGOAL One section Crossbar.

CE NOT SUITABLE FOR CHILDREN UNDER 36 MONTHS UNTIL ASSEMBLED DUE TO SMALL PARTS.

ANCHOR YOUR GOAL POSTS & TIE NETS TO ALL FRAMES

During a game the goal posts must have the ground anchors inserted as shown below, in order to fully hold the goal post ground sections together. The Crossbar connects into the upright posts with the corner brackets (A). It is important to fix the goal net to the larger posts with the Large Net Ties (NT). Use the Small Stanchion ties (ST) to attached the nets tightly to the net supports as indicated. See over for other helpful hints on assembly.

Attached the net to the 68mm Dia post sections using Large Net Ties

Use the Small Stanchion ties to attach the net to the 40mm Dia net support tubes

FRONT GROUND ANCHOR POSITIONS

Lay the Crossbar Section along the goal line to give you the correct position to insert the Front Ground Anchors and the distance between them (steps 1-2).

The Front Ground Anchors need to be sunk into the ground. For hard grass surfaces You may need to hammer the Front Ground Anchor. Use a wood block to protect the Anchor (step 3).

When the Ground Anchor is in position you can now slide the Uprights onto the anchors (step 4). To secure the Anchor in the ground use a Ground peg which will keep the Anchor in place (step 5).

DO NOT USE IN EXTREME GALE FORCE WINDY CONDITIONS

CORNER BRACKET, STANCHION & ELBOW ASSEMBLY

NOTE: Ensure Top Stanchion holes are aligned with the Stanchion Elbow.

press button in and out to warm up, this helps fitting, once in, this button stays connected

Push and Fit the Spigots to the Corner Brackets. The Spigots will then lock into position.

NET TIES : Place the small stanchion net ties on the net support stanchions. This will help extend the life of your net and keep the frame tightly fitted together. Apply the larger ties to the ground frame and the posts. We recommend placing the net ties no more than 340mm apart. The net ties supplied are designed to permanently fix the net to the goal frame. If you require to take nets on and off, other net fixings can be used.

NOTE: Goal must be anchored otherwise breakages may occur. In extreme conditions it is advised to store away. The best way to store your goal is to remove crossbar and rear back bar section leaving the net attached to the side frames.

If you do this regularly then it is advisable to buy optional removable net ties. The goals are ideal when left with nets attached, for example in a garden. You must anchor your goals with the multi surface ground anchors provided. At the end of the season nets can be tied into a bundle and placed into a pillow case (not to damage washing machine) and washed at 40 C0 with normal washing powder. The ground frame

can be washed with hot soapy water. Any scuff marks on posts can be rubbed off with a light abrasive scouring pad.

WARNING: Check the position of any underground services before using the ground anchors and pegs. We take no responsibility for any damage or injury caused in this manner.

NEVER use the goals without the ground anchor system. In severe weather or windy conditions it is advisable to take your goal down as damage is not covered by the guarantee in such circumstances.

If you find the nets are worn along the floor it may be rodents, by spreading pepper along the base frame rodents will be deterred.

It is advisable in any contact sport to take out the relevant insurance's to cover against injury both from taking part, equipment and other unforeseeable circumstances.

Crossbars will not be replaced within the guarantee period if broken by swinging or climbing or any other misuse. **DO NOT** try to glue any damaged fixings, plastic materials in this product vary and this may cause the plastic to break. Always replace any damaged components.

NOTE : All plastic extrusions vary and therefore some tubes may be looser or tighter to connector fittings. If you want to increase the diameter of the fitting just wrap masking tape around the part that fits into the tube, twist as you insert the fitting and it will grab to the tube tight ...you can make tighter fits by adding more tape.

SQUARE MESH Net is cut to shape. Simply throw over the frame and fit each end onto top stanchion by securing on each corner of crossbar.

NOTE: If your net does not fit the first time, you may be fitting it to the goal frame upside down i.e. that is to say the net from the crossbar to the floor (a) is longer than the length of the net to the bottom of the upright.(b)

We advise adult supervision during assembly and use. Do not use any components, nets or parts if they are damaged or broken. Spare parts and replacement nets are readily available. If others are to install your goal you should show them how to erect and dismantle the goal and hand them a copy of the fitting instruction. If you lose your instructions copies can be attained from our company website. It is advisable in extreme windy conditions to dismantle the goal and store away. Do not drop any heavy objects on ends of tubes. When dismantling the goal ensure that all fittings are packed away and that non are left on the playing surface. Warning goals must never be left up or used unless they are properly fitted with ground anchors with net attached and securely pegged down.

Hard surfaces: to prevent damage to goal or it's components, loosen soil with a steel pole and moisten with some water before inserting the ground anchors. Do not use the goal in sub zero temperatures. Damaged components requested under guarantee must be returned for inspection. Failure to follow the warnings, fitting instructions contained in this document, may invalidate your guarantee.

The company , its agents and representatives do not accept any product liability if used outside the EU. Use of the product in other countries outside the EU including the USA is not covered and appropriate insurance should be taken out by the user to cover for any eventuality.

We reserve the rights to amend the specifications of our soccer products in the interest of continued development. Your product therefore may differ slightly to those illustrated. Not suitable for children under 36 months until assembled due to small parts.
